Federal Election Commission

Regarding 2012 amendments and correcting beginning cash for Midyear report for 2013.

We have filed amendments for our 2012. We have corrected out cash on hand as wells a contributions. We discovered that some donations had been counted twice when they were given via American Express cards by our contributors. We also had

contributions that were reported but were never approved via merchant account (ie declined credit cards). We have fixed those problems and have fixed our system internally so that this will not happen. It was not discovered due to the large number of credit card transactions.

We have also updated payables where appropriate.

Kelly Lawler
Treasurer
